

July 15, 1910

The artists in Perspectives.Art. Ecology are all concerned about what is happening to our environment. Write down all the different types of environment you can see in the exhibition.

Perspectives.Art.Ecology

Primary Education Kit

Western Plains Cultural Centre

23 May - 19 July 2009

Peter E Charuk  
Kim Goldsmith  
Gail Naden

July 12, 1952

They also believe that the environment is worth fighting for. Write down three important things or animals in our environment that need to be protected. When you get home, think about what you can do to protect them.

Before you enter!  
Write down three things you think are important fighting for.

# The Five Senses and Art

Not all art uses just the sense of sight! Write the name of an artwork from Perspectives.Art. Ecology underneath each sense that uses that sense. You only need one for each sense.

## The Hare

Find Peter Charuk's work with the Hare (a hare is related to a rabbit). Peter found this hare dead on the side of the road, where it had been cut by a car.

Write a story about why the hare was trying to cross the road.

# Two Art Works

Find an artwork you like. Sketch that art work and write down its name and who made it. Then write down three reasons you like it

My Sketch

Name of the Artwork

The Artist

I like this because
